DataScienceEcosystem

March 18, 2025

Add your code below following the instructions given in the course

1 Data Science Tools and Ecosystem

In this notebook, Data Science Tools and Ecosystem are summarized.

Some of the popular languages that Data Scientists use are:

1. Python
2. SQL
3. R

Some of the commonly used libraries used by Data Scientists include:

1. Numpy
2. Pandas
3. Keras

Data Science Tools
Hadoop
Apache Spark
Tableau

1.0.1 Below are a few examples of evaluating arithmetic expressions in Python

```
[3]: #This a simple arithmetic expression to mutiply then add integers
     (3*4)+5
```

```
[3]: 17
```

```
[6]: # this will convert 200 minutes to hours by diving by 60
     minutes = 200
     conversion_rate = 60
     hours = minutes / conversion_rate
     print(hours)
```

```
3.3333333333333335
```

Objectives: - Popular languages for Data Science - Commonly used libraries for Data Science - Simple arithmetic expressions

1.1 Author

Nicholas Moore
